**Re: Ex Parte Presentation: CS Docket No. 97-80; CSR-7131-Z**

Dear Ms. Dortch:

On May 1, 2007, Bill Bauer of Beyond Broadband Technology LLC (“BBT”), joined by Stephen Effros of Effi-os Communications and the undersigned, met telephonically with Brendan Murray, Michael Lance, Steven Broeclaert, Alison Greenwald Neplokh, Jeffrey Neumann, and John Gabrysch of the Media Bureau to discuss the BBT open-standard downloadable security solution. In addition to responding to inquiries from the staff regarding the technical capabilities of the BBT solution, Mr. Bauer and Mr. Effros restated a number of the points made in BBT’s comments supporting JetBroadband’s pending integration ban deferral petition. In particular, Mr. Bauer and Mr. Effros reiterated that the BBT solution is being designed for maximum flexibility and use by both the cable and consumer electronics industries through the mechanism of an “open standard” process and that it is BBT’s intention for this open standard to allow for the downloading of both security and other set-top capabilities consistent with the Commission’s stated objectives regarding the development of nationally portable devices available for retail sale. Mr. Bauer and Mr. Effi-os also reiterated that granting JetBroadband’s petition will further the accomplishment of those objectives.

In accordance with section 1.1206 of the Commission's rules, an electronic copy of this notice is being submitted for inclusion in the record of the above-referenced proceedings.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Seth A. Davidson', with a long horizontal flourish extending to the right.

Seth A. Davidson  
*Counsel for Beyond Broadband Technology LLC*
